Education

Darshan University, Rajkot, Gujarat, India April 2026
Diploma in Computer Engineering

- Led and managed two major final-year capstone projects, coordinating a team of peers through design, development, and delivery.

Experience

Voorin Technologies Pvt. Ltd., Rajkot, Gujarat, India Jan 2026 – Present
Founder

- Founded a SaaS company serving 5–8 clients with a 4–6 member engineering team.
- Shipped OdoShift and LaunchKit from concept to paying customers.
- Managed product development, client communication, and project execution.

Blitz Innovations, Rajkot, Gujarat, India (Remote, Part-time) Nov 2025 – Present
Back End Developer

- Designed the database architecture and backend APIs for Knockhouse and its partner app.
- Developed backend services, CI/CD pipelines, and cloud infrastructure as a Backend & DevOps Engineer.

Projects

Face Swap Beta 2025
Python • OpenCV • Computer Vision • Deep Learning

- Built an AI-powered **real-time face-swapping** application achieving **15–20 FPS** on live webcam streams using computer vision and deep learning.

2D Physics Engine 2026
C99 • Physics Engine • Collision Detection

- Built a high-performance C99 physics engine supporting **10,000+ rigid bodies** at **30+ FPS** using broad-phase collision detection and impulse-based resolution.

8B Generative-AI model 2026
Python • PyTorch • Transformers • LLM

- Developed an **8B-parameter transformer-based LLM** with optimized inference supporting **8K-token context windows**.

Skills & Interests

Languages: C, C++, C#, Python, Java, JavaScript, TypeScript
Technologies : PyTorch, Transformers, OpenCV, React, Node.js, Flutter, .NET, Express.js, REST APIs
Tools & Platforms: Git, Linux, Docker, MongoDB, MySQL, Firebase, Azure, AWS, GCP
Interests: Astrophysics, Artificial Intelligence, Systems Programming, Computer Graphics

Awards & Accomplishments

Web Development Hackathon, Darshan University 2024
Zoho Workshop Series, Rajkot 2025
AI India Summit 2026, Atmiya University 2026
